Professional Summary

Computer Science undergraduate with strong interest in Java Full Stack Development. Skilled in Java, SQL, HTML, CSS, JavaScript, and RESTful APIs with solid knowledge of Object-Oriented Programming and Data Structures. Solved 200+ LeetCode problems demonstrating strong analytical and problem-solving skills. Seeking technical or research internships to contribute to real-world software development and innovative projects.

Technical Skills

Programming	Java, C, JavaScript
Core Concepts	Object-Oriented Programming (OOP), Data Structures & Algorithms
Web	HTML5, CSS3, JavaScript, RESTful APIs
Database	SQL
Tools	Git, GitHub, VS Code, IntelliJ IDEA

Projects

Gen-AI Interview Simulator & Resume Advisor

Developed an AI-based platform that simulates technical interview scenarios and provides personalized feedback to users. Implemented functionality to generate interview questions based on different job roles and evaluate candidate responses. Built a resume analysis module that suggests improvements in structure, keywords, and technical content. Designed an interactive user interface to display AI-generated feedback and recommendations.

Online Pizza Ordering System

Created a responsive web application that allows users to browse pizza menus and place orders online. Implemented features such as item selection, quantity control, automatic price calculation, and order summary generation. Developed an interactive UI using HTML, CSS, and JavaScript to improve user experience and ensure smooth navigation across devices.

To-Do List Application

Built a lightweight task management web application that enables users to add, update, and delete daily tasks. Implemented browser local storage to ensure tasks remain saved even after refreshing the page. Utilized JavaScript DOM manipulation to dynamically update the interface and maintain task state.

Internship Experience

Java Full Stack Developer Intern – Averexis Solutions

Worked on web application development, implementing frontend interfaces and integrating backend APIs to support application functionality.

Java Full Stack Developer Intern – EduSkills

Gained hands-on experience with full-stack architecture including frontend development, backend logic implementation, and database integration.

Education

B.Tech in Computer Science and Engineering – Santhiram Engineering College (2023–2027) |
CGPA: 8.7/10

Certifications

- Java Full Stack Developer – EduSkills
- Quantum Computing – EduSkills
- Zscaler Virtual Internship (10 Weeks)
- Google AI & Machine Learning – AICTE

Achievements

- Solved 200+ problems on LeetCode
- 50 Days Consistency Badge – LeetCode
- Coordinator – LeetCode Club, Santhiram Engineering College
